

HeatArmor® 5051

Built to handle extreme heat applications such as stick welding, HexArmor's HeatArmor® 5051 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5051 features our revolutionary, long-lasting HeatHide® leather treatment technology on a full cowhide leather exterior to prevent leather from becoming brittle or shrinking. Plus, an interior polyester/fiberglass blend liner delivers extra heat and cut protection in 360 degrees – allowing you to switch applications without switching your gloves.

Attributes

Style: Hot work/Welding

Grip: Dry or light oil

Cuff style: Gauntlet

Sizes: 7/S through 12/3XL

Product features

- HeatHide® technology leather treatment is ideal for extreme heat applications such as torch cutting, welding, and foundries
- Premium heat-resistant treated split cowhide leather rates level 2 for contact heat resistance
- Polyester/fiberglass blend liner provides 360° cut protection (interior layer)
- Made with flame-resistant materials
- Aramid stitching throughout for added strength and durability
- Gunn cut construction
- 5.5" extended gauntlet cuff with polyester lining
- Designed for stick welding applications
- Vend-packed
