

HeatArmor® 5055

Built to handle extreme heat applications such as MIG welding, HexArmor's HeatArmor® 5055 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5055 features a cowhide leather exterior with our revolutionary, long-lasting HeatHide® leather treatment technology while an interior HPPE/polyester/steel liner delivers 360° cut protection – allowing you to switch applications without switching your gloves. Plus, added sewn-on back-of-hand impact guards provide protection against smash and pinch hazards on the job.
