

F50/F300 Power Supply Cross Reference

Honeywell

The power supply can be ordered as a bare board, or as a top power box assembly including the cover. The cover will be the new, black cover used with the Honeywell F300, but the old cover can be re-used if desired.

Minor configuration is required. The board ships with a jumper that must be set based on the size of the cells. The correct jumper location is listed on a table printed on the board.

The most common power supplies available are as follows.
