

The Residential Solution.

INSTANT-OFF is the most cost-effective tool to reduce cross-contamination, eliminate wasted water and stop drippy faucets.

Home Series Water Savers Are Powered by Innovative Hydraulic Technology

The INSTANT-OFF Water Saver replaces the aerator on any faucet and automatically shuts-off the water when you don't need it. INSTANT-OFF conserves more water than any other water saving device because it eliminates wasted water. INSTANT-OFF is the fastest, least expensive way to stop a drippy faucet. Just screw in the INSTANT-OFF and the drip immediately stops. Millions of people struggle to turn faucet handles, INSTANT-OFF helps provide people with hand disabilities or arthritis a painless method to control water in bathrooms and kitchens.
