

# MAID-O-MIST

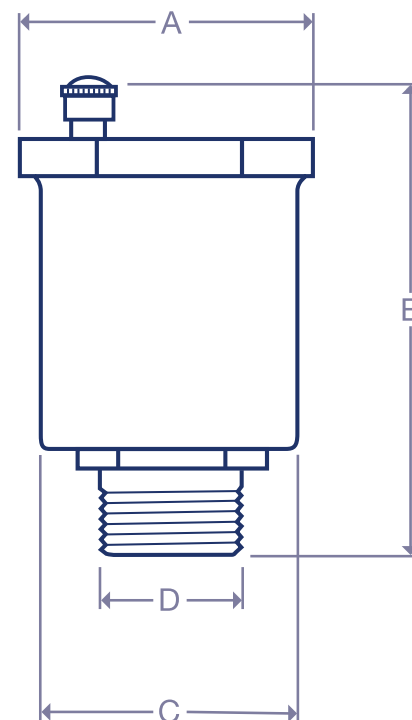

## HIGH CAPACITY BRASS VENTS

### For Residential or Commercial Heating and Cooling Systems

Purges and eliminates air in water lines, installs vertical at highest points on line.

A float type vent with a single non-adjustable port. For use on ordinary one-pipe system not requiring proportional venting. Maid-O'-Mist's brass Auto-Vent is an ideal automatic vent for hydronic and radiant heating applications. With the highest capacity rating

available for a forged air vent in the 35-150 psi range, it will relieve air much faster than any other comparable automatic vent.
