

Helps Inhibit the Growth of Harmful Bacteria

Switches and wallplates are two of the most frequently touched surfaces in the home, often leading to the daily build-up of bacteria. Replacing traditional devices with Antimicrobial Switches and Wallplates provides a practical solution to help combat the spread of harmful bacteria for an extra layer of protection.

Industry-Leading Protection

Material used in Leviton residential antimicrobial devices has been tested to the international standard ISO 22196:2011 and has been shown to be 99% effective in reducing the growth of harmful bacteria including *S. aureus* (MRSA), and *E. coli*, as well as mold, mildew and fungi.

Applications

Entryways, Kitchens, Bathrooms, Children's Rooms, Hallways, Basements, Utility/Laundry Rooms, and Garages.

Features and Benefits

- Antimicrobial additive helps protect the device's surface from bacteria growth, mold, mildew and fungi in between routine cleanings
- The antimicrobial additive embedded in the plastic of Leviton antimicrobial devices is Environmental Protection Agency (EPA) registered
- For complete antimicrobial protection, use both Antimicrobial Switch and Wallplate

Decora® Switches

- Available in Single-Pole and 3-Way
- Quickwire™ push in (#14 AWG solid wire only), side and back wiring for easy installation
- Back and side wire terminal screws accept up to #12 AWG copper or copper clad wire
- Torque Range: 14 -18 in.-lbs.

Toggle Switches

- Available in Single-Pole and 3-Way
- Quickwire™ push in (#14 AWG solid wire only) and side wiring for easy installation
- Side wire terminal screws accept up to #12 AWG copper or copper clad wire
- Torque Range: 14 -18 in.-lbs.

Wallplates

- Decora wallplates available in 1-gang, 2-gang and 3-gang configurations
- Toggle wallplates available in 1-gang and 2-gang configurations
- Antimicrobial additive is embedded in the paint used on wallplate screws and if chipped or damaged, the antimicrobial protection may be compromised

Agency Standards and Compliance

- JIS Z 2801:2000: Test for Antimicrobial Activity and Efficacy
- UL/CSA

Warranty Information

- Two-Year Limited Warranty
