

Decora® Insert for MOS Modules

APPLICATION

The field-configurable Decora® Insert accepts all 1-unit-high Multimedia Outlet System (MOS) modules. It is used to support voice, data, audio, and video applications in NEMA openings.

SPECIFICATION

The workstation housing shall be a field-configurable true Decora housing that fits standard NEMA openings. It shall accept one 1-unit-high Multimedia Outlet System module. It shall be constructed of high-impact, fire-retardant plastic rated UL 94V-0. It shall also be UL Listed, and compliant with FCC Part 68 and ANSI/TIA-568-C.0 specifications.

FEATURES

- Mounts completely flush with wallplate
- True Decora brand design matches Leviton Decora rocker switches and electrical products
- Fits within minimum standard NEMA openings
- Compatible with 1-unit-high MOS modules

DESIGN CONSIDERATIONS

- Available in white, ivory, light almond, grey, and black
- Compatible with Decora Plus Wallplates when used with standard NEMA back boxes that sit flush or are slightly recessed in the wall
- Not compatible with Decora Plus Wallplates when used with low-voltage box eliminators

STANDARDS COMPLIANCE

UL Listed; complies with NEC® Article 800; ANSI/TIA-568-C.0
