APPLICATION

The EZ-RJ45 Cat 6 Plug and Crimp Tool provides quick, cost-effective UTP wire terminations. The plug features openings that allow wires to be inserted and extended out of the front, providing increased performance, wire sequence verification, and no wasted connectors, crimps, or bad terminations. The crimp tool features a built-in cutter and stripper that crimps and cuts wires in one operation. It accommodates EZ-RJ45 plugs, and most standard RJ-45 and RJ-11 plugs. This craft-friendly tool features precision ground-crimp dies, a full-cycle ratcheting mechanism, and steel construction for strength and durability.
