SUMPJET® Water Powered Back-Up Pump

Model SJ10 Shown

SHARKBITE®
Fitting

2
YEAR
WARRANTY

***Protects
basement during
power outages!***

***Requires no
electricity***

Features:

- Accepts 20PSI up to 100PSI inlet supply pressure**
 - Fully automatic
- High-output flow rates
 - Compact design
 - Fully-assembled
 - 1-1/2" Discharge
- Works off municipal water supply*
 - 3/4" NPT water inlet connection
- UPC approved (IAPMO PS 119-2005)
- SHARKBITE® inlet connection accepts pex, copper or CTS CPVC 3/4" line

***Efficient design removes
more water per gallon used***

* The SJ10 requires an uninterrupted water source to operate. If you have a well pump, the SJ10 will not operate during power outages.

**SJ10 pumping performance varies with inlet water source pressure and pumping head. See complete specifications and performance chart for expected flow rates.

50	345	17.2	1032	3.9	14.5	870	3.3	12	720	2.7	10	600	2.3
60	414	19.8	1185	4.5	17	1020	3.9	15.2	912	3.5	13.5	810	3.1

Features:

Adjustable stainless hose clamp for easy mounting

Removes 2 gallons of water for each 1 gallon used. (based on 5' lift)

Fully assembled, compact design

Built-in screen with removable foot valve

Constructed of durable PVC

Dimensions

Major Height: 21.6", Major Width: 5.1", Weight: 3.5 lbs.

Construction: PVC

Maximum Fluid Temperature 130 Degrees F.

Inlet Connection:

3/4" SHARKBITE® fitting

Discharge Size: 1-1/2"

Built-in check valve at water inlet

Additional backflow protection is required. Check with local plumbing codes prior to installation.

Important: Minimum recommended pit diameter is 18". The SJ10 works in conjunction with your main sump pump. Make sure you have adequate pit size to properly install the SJ10 without float interference.
