

MANIFOLDS

MalcoEdge™ Manifolds combine precision, durability, and versatility for reliable HVACR system servicing. Designed for compatibility with A2L, and traditional refrigerants, these manifolds offer clear system visibility and smooth, controlled operation to support accurate charging, and diagnostics.

Available in kits with Safe Seal hoses and carry case or as manifold-only configurations.

- 1/4 turn control valves for fast operation and increased refrigerant flow
- Spring-loaded valves deliver precise, leak-tight sealing
- Designed for precise pressure control and long-term reliability

M2VA2L

A2L 2-VALVE MANIFOLD

For R32, R454B, R410A Systems

Designed for safe service of today's A2L refrigerants.

M2VKA2L

A2L 2-VALVE MANIFOLD KIT

M2VMG

MULTI-GAS 2-VALVE MANIFOLD

For R22, R134a, R404A, R407C Systems

Built for reliable service across traditional HVACR refrigerants.

M2VKMG

MULTI-GAS 2-VALVE MANIFOLD KIT

SAFE SEAL

KITS

- Includes manifold, MalcoEdge Safe Seal 72" x 1/4 SAE hose set and rugged carry case
- Matched components for optimal performance
- Ready-to-use out of the case

MANIFOLD ONLY

- Ideal for techs using existing hose sets
- Compact, core diagnostic and charging tool
- Compatible with MalcoEdge™ Safe Seal hoses (sold separately)

Built-in hook and magnetic strap for placement flexibility during use on the jobsite

High-visibility gauges for quick system monitoring

Durable and lightweight anodized aluminum body.
