

## Light Where You Need It!®

It's dusty and there is grit in the air, but you've got a job to do. The inspection light in your toolbox with the half-gone bite ring isn't going to cut it. The MAXXEON WorkStar® 430 INSPECTOR MAXX (MXN00430) combination LED work light/penlight is the perfect tool for the situation. With a sturdy clip placed opposite the 7 COB LED work light, put this tool in your chest pocket and forget about it. We've improved upon the Maxxeon® WorkStar® 420 in these ways:

- Increased lumen output of the work light by 10%
- 220 lumen work light runs for 1.5 hours
- 135 lumen penlight runs for 2 hours
- 3-LED battery life/charge indication added
- Increased magnet strength in pocket clip
- Quiet soft-touch power switch
- Order MXN00430
