

VersaMag™

Product Summary

The NMT® VersaMag™ is the most versatile multijet type water meter for submetering applications. Along with its compact design, the removable register allows for pressure tests and line flush-out without damaging the internal components. The VersaMag™ is capable of being installed in both horizontal and vertical positions while adhering to AWWA C708 accuracies. With all of these features, the VersaMag™ is the complete meter for any submetering application.
