

KNIPEX Quality – Made in Germany

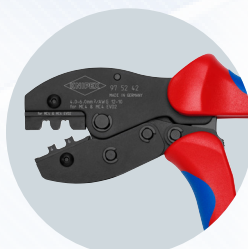

KNIPEX PreciForce – Crimping Pliers

**For durable and reliable
crimp connections of**

MC4/MC4 EVO 2 photovoltaic connectors

- ▶ For installations on residential and industrial buildings or on isolated systems such as mobile homes
- ▶ Precise, factory-set (calibrated) crimping pressure
- > Consistently high crimping quality due to precision dies and ratchet mechanism (unlockable)
- > High crimping force due to efficient lever action
- > Easy to crimp due to light weight and short comfortable handles
- > **Crimping die is not exchangeable with other crimpers**

The unique joint noticeably increases the hand force – for easier operation

The ratchet crimping mechanism opens the pliers once the optimum crimping pressure has been reached

For MC4- and MC4 EVO 2 connectors

Crimps quickly and cleanly

The crimping dies for 12 AWG (4 mm²) and 10 AWG (6 mm²) crimp the standard MC4 and also crimp the MC4 EVO 2 connectors

Article No.	↔ inches			Pliers	Handles	Application	Capacity	
							AWG	mm ²
97 52 42	8 1/2			burnished	with multi-component handles	MC4 and MC4 EVO 2 solar cable connector	12 + 10	4 + 6
