

ALCOHOL HAND CLEANER GEL

**REDUCE YOUR RISK OF
COVID-19 INFECTIONS**
Use an alcohol-based hand cleaner

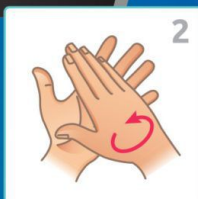

Laboratory data demonstrates that 60% ethanol and 70% isopropanol, the active ingredients in CDC-recommended alcohol-based hand sanitizers, inactivates viruses that are genetically related to, and with similar physical properties as, the 2019-nCoV.

Part# RT8989

The Ideal Clean

1
Apply plenty of the hand gel

2
Rub palm to palm

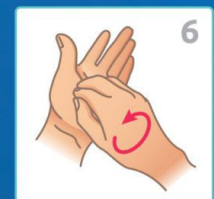

3
Scrub between fingers

4
Rub backs of fingers on opposing palms

5
Clean thumbs

6
Wash fingernails and fingertip
