

## EnergySaver® Direct Vent Wall Furnaces

EX38DTW  
DIRECT VENT  
WALL FURNACE

EX17DT / EX22DT  
DIRECT VENT  
WALL FURNACE

### Consistent, Even Heat

Continuously monitors temperature changes, gently heats the room

### User-Friendly Controls

Programmable control panel to set desired temperatures throughout the day

### Wall Thermostat Compatible

Attach a Wi-Fi-enabled thermostat for additional comfort and flexibility

### High Altitude Approved

No altitude limits on your comfort up to 10,200 feet

### Versatile Installation Options

Simple one-hole venting allows for placement on almost any exterior wall

### Modulating Technology

Modulating gas valve and variable-speed blower provide consistent warmth and comfort

EX08DT / EX11DT  
DIRECT VENT  
WALL FURNACE

We have made some aesthetic and performance improvements to our existing Direct Vent Furnace offering.

Transform any living space — from basement to sunroom, or even the whole home — with self-adjusting heat that keeps room temperature consistent, from floor to ceiling.

### Consistent Warmth and Reduced Cold Spots

- Maintains pre-set temperature
- Distributes heat evenly

### Energy Efficient Solutions

- Unique energy-saving modulating technology intuitively matches the specific level of heat needed at any given moment, responding to the smallest temperature changes (within 2 in / 5 cm above the floor)
- Rinnai offers multiple models for just the right size and configuration to heat a whole home or complement an existing heating system
- Complements existing heating solutions
- Minimizes heat loss with no ductwork

### Customized Heating

The easy-to-use programmable thermostat lets you set a comfortable temperature for when you're home and a lower setting for when you're gone. Attach to a Wi-Fi enabled thermostat (Nest, Honeywell, Ecobee, etc.) for additional flexibility and comfort, meeting supplemental or specific zone heating needs.

### User-Friendly Control Panel

Manage the temperature in your home with our user-friendly control panel. Simply choose a set temperature or customize heating during the day by programming the timers.
