

190 SERIES

Wall Thermostat Guards
Physical Protection | Security

Robertshaw®

190-050

190-068

190-065

Features and Benefits

- Complete enclosed thermostat protection
- Security: Integral locks and one key for multiple installations
- Built-in air circulation ports maintain thermostat operation
- Solid and ring mounting base types available
- Transparent covers available

Description

Wall thermostats receive fully enclosed physical protection and security from unauthorized tampering with 190 Series Thermostat Guard Kits. Transparent and metal guards are available. Covers feature air circulating ports on all four sides to ensure ample air circulation and proper thermostat operation. Each kit has a permanently attached eight-tumbler type lock and a key that fits multiple installations. The 190-065 metal guard is made of 18/22 gauge steel with a baked enamel finish. The kits include solid or ring mounting bases. Ring base models do not require thermostat removal during guard mounting. No rewiring is necessary.

Specifications

190-050

| | |
|-------------------|---|
| Model Number | BTG-K |
| Cover Shape | Rectangle |
| Inside Dimensions | 5¼ in. L x 4 ⁵ / ₈ in. W x 3¼ in. D |
