

Baseboard Radiators

Runtal's Baseboard style is ideal for those desiring a low profile. As a retrofit, Runtal baseboard is a natural replacement for fin-tube or cast iron. In these cases, it is often easiest to use the existing piping and simply order the appropriate lengths. Depending upon the heat output, or the desired design "look", Runtal will supply baseboard styles ranging from 1 to 4 tubes high.

Runtal offers 2, 3 and 4 panels high baseboards in white for immediate delivery in 2', 2.5', 3', 3.5', and from 4'-14' in even foot increments. All stock baseboards have multiple tappings (AB) that allow for all types of bottom and side piping connections (See piping configuration AB on page 13, Table 3). Stock baseboards may be special ordered in any of the other nine standard colors with a two-week delivery.

runtal Wall Panels

Runtal's Wall Panel style radiators are ideal for placement under windows or on walls where floor space is at a premium. When placed under windows, wall panels help eliminate cold spots and drafts while allowing curtains to hang to the floor. Wall panel radiators are available in a variety of heights and widths to suit most any need.
