

# 4" Square Box Mounting Plate with Single Gang Device Ring

## Features

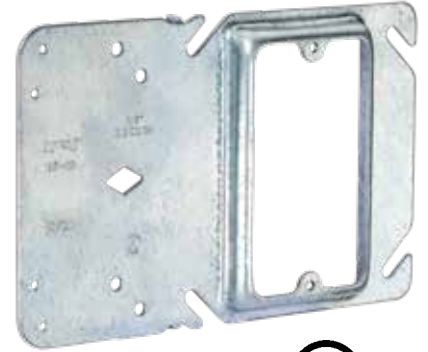

- Heavy-duty support plate with built in single gang device ring
- Available in 1/2", 5/8" and 3/4" depths
- Oversized holes to easily view marked lines on stud

## Applications

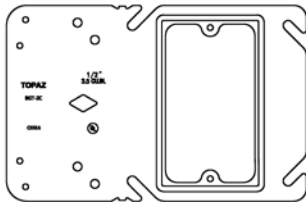

- Use to mount a 4" square electrical box to a metal stud
- Heavy-duty support plate eliminates the need for a far side support

## Standard Material

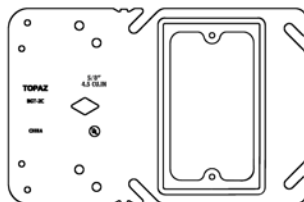

- Galvanized steel
