

## BRING YOUR SUPCO TRADEFOX® MAGNETIC UMBRELLA TO NEW HEIGHTS

Bring your SUPCO TradeFox® Magnetic Umbrella to new heights with this extension pole accessory. When attached, the pole adds an additional 9 inches in height to the umbrella, making the total height approximately 46 inches.

**NOTE:** The Extension Pole is intended to be used with the Magnetic Umbrella Kit only when the umbrella is in a vertical position.

### FEATURES

- ✓ Easy installation - no tools required
- ✓ Attaches between umbrella and magnetic base (On Supco Part No. MUKIT)

## TECHNICIAN INVENTED TECHNICIAN PROVEN

The SUPCO TradeFox® Magnetic Umbrella Kit was designed by a real HVAC technician who zip-tied a speaker magnet to an umbrella to try to stay cool while working in the heat.

Years later he perfected his design by figuring out how to make it lightweight, functional and cost effective.

The Magnetic Umbrella Kit has taken the HVAC industry by storm, and as a result of market feedback, the extension pole was added to accommodate a wider variety of working conditions.
