

**Saves Energy!**

***5 & 2 Day Programming  
1 Heat 1 Cool Outlet  
Thermostat***

**WIN100**

(Patent No. 7,175,098)

**FEATURES:**

- Preprogrammed - 4 Periods per day
- Separate Programs for Heating and Cooling
- Armchair Programmable
- Temporary Temperature Override
- Manual Hold
- Setting Range 45° F to 90°F
- User Temperature Calibration
- Adjustable Temperature Differential / Cycle Rate
- Energy Star Compliant
- ETL Approved

**DIMENSIONS:**

3" width, 5.25" height

**Electrical Ratings:**

Unit is directly powered by 120V outlet. Two (2) 1.5V G13 alkaline button cell batteries included are for maintaining the clock only.

**For Use On:**

All mechanically controlled: 120Volt, 15 Amp, 60 Hz, window air conditioning units and portable space heaters. It is also compatible with electronically controlled: 120Volt, 15 Amp, 60 Hz, window air conditioning units that have automatic restart of cooling after power resumption\*\*.

**Not For Use On:**

It cannot be used with electronically controlled space heaters, or window air conditioning units that do not have automatic restart of cooling after power resumption\*\*. In addition, it cannot be used with conventional 24 Volt heating/cooling systems, hydronic systems, or heat pumps.

**\*\* NOTE:**

Electronically controlled units can usually be identified by their digital readout. To learn whether a particular model offers automatic restart of cooling or heating after power resumption, refer to their manual or manufacturer.
