Model Number Notes

- (1) High pressure control is standard on all units
- (2) Manual outside air damper will ship factory supplied within the unit, but must be field installed.
- (3) Economizer with Barometric Relief is for downflow configured units only. Order Economizer without Barometric Relief for horizontal configuration. Barometric Relief for horizontal configured units must be ordered as a field installed accessory.
- (4) Multi-Stage, direct drive standard.
- (5) SZVAV/MZVAV available only on 3 to 5 tons high efficiency and 10 ton standard efficiency unit.
- (6) Multi-speed indoor fan only available only on 3 to 5 tons high efficiency and 10 ton products.
- (7) Through the base electric required when ordering disconnect/circuit breaker options.
- (8) Includes gas piping and shutoff (field assembly required).
- (9) Requires use of Disconnect or Circuit Breaker.
- (10) Must be used with BACnet ® open protocol.
- (11) Standard metering devices are TXVs.
- (12) Froststat standard on multi-speed and SZVAV (single zone variable air volume) products.
- (13) Crankcase heater is standard on all 3 to 5 ton heat pumps.
- (14) The return air smoke detector may not fit up or work properly on the Precedent units when used in conjunction with 3rd party accessories such as bolt on heat wheels, economizers and power exhaust. Do not order the return air smoke detectors when using this type of accessory.
- (15) Demand Control Ventilation Option includes wiring only. The CO₂ sensor is a field-installed only option.
