QuickTrim™ Kits

SPECIFICATIONS

FEATURES AND BENEFITS:

- No tools needed!
- Install chrome on the rough-in and easily up-grade to a special finish without removing the strainer body.
- Quickly and easily replace a damaged strainer body.
- Looks just as good as the original strainer body.
- Cover is thinner than a standard strainer body (.03") and will not create a water dam.
- The o-ring seal is all that is required; no silicone, plumber's putty, or epoxy is needed.
- Eliminates destroying the integrity of your test when removing a strainer body.
- Eliminates the labor required to remove and replace the strainer body.
- Eliminates the possibility of cross-threading or damaging the tub or of the drain fitting moving out of line when replacing the strainer body.

PATENTS:

In order to take advantage of the full "total installed cost" benefits of Watco **QuickTrim™** Kits, we recommend the following:

1. Purchase and install chrome Rough-In (RI) kits on all initial installations.
2. Purchase chrome Stopper/Faceplate (SF) kits for all chrome trim finishes.
3. Purchase kits for all special finish upgrades.
4. Purchase chrome **QuickTrim™** strainer body covers for repair of chrome strainer bodies that have been damaged during rough-in.
