Save Time and Money!

Want to upgrade to a special finish? The "New" Watco **QuickTrim™** Kits allow you to install chrome on the rough-in and easily upgrade to a special finish without removing the strainer body. Watco **QuickTrim™** Kits are available in all Watco special finishes including the "New" Aged Pewter.

QuickTrim™ Kit

Includes Overflow Plate, Stopper, Strainer Body Cover

- Designed for New Construction
- No reduction in flow rate.
- Sturdy stainless steel.
- Produces very little additional height or inside-diameter reduction.
- Uses an o-ring for a tight, snug fit
- Eliminates destroying the integrity of your test
- Eliminates labor required to remove and replace the strainer body.
- Eliminates the possibility of cross-threading or damaging the tub when replacing the strainer body, or of the drain fitting moving out of line due to being stressed during installation (can require cutting open the sheetrock to repair).
- Also available in chrome to easily replace tarnished or damaged trim and one & two hole overflow plates
- Designed for use on Watco Strainer Bodies

Always A Step Ahead
