

Flexible

Flex900 Innovator®

Models Flex916 / Flex924

Flexible tubing in place of the rigid PVC overflow pipe allows the overflow tubing to easily bend over from a misaligned drain pipe to the overflow hole of the tub.

SPECIFICATIONS

FEATURES:

- Eliminates the need to use 45° elbows for offsets. Just bend the flexible tubing to correct the misalignment.
- Eliminates all screws and a separate overflow test plug
- Eliminates leaks due to loose overflow attachment
