

New WatcoFlex® Bath Waste

Installs Easier/Faster

The WatcoFlex® is a fully customized and pre-fabricated bath waste. It eliminates all cutting and fitting in the field and takes just minutes to install. It is factory sealed, tested and warranted. The WatcoFlex® is designed to fit on a specific tub and is ideal for high volume jobs where you know the tub before you get to the jobsite.

Just provide us the tub manufacturer and model number
and we will do the rest!

Includes Innovator® overflow system. Parts assemble by hand. No screws. Built-in test membrane.

Designed for direct drain layout. Factory sealed and tested. Eliminates four field joints.
