Individually tested

Kraftform adjustable torque handle for Electricians

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900. This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Kraftform adjustable torque handle for Electricians

Easy-to-read scale value. Measurement accuracy is $\pm 6\%$ in accordance with the standard EN ISO 6789.

Kraftform adjustable torque handle for Electricians

Simple setting of the required torque by hand.

Excess-load signal

Distinctly audible and noticeable excess-load signal when the pre-set torque is reached.

Inserting the blade

According to the job, the insulated inter-changeable blade with the required tipstyle, or a switch cabinet key is inserted into the clamping mechanism.

Taking out the blade

By pulling and holding down the clamping sleeve the interchangeable screwdriver blade, or the switch cabinet key, is unlocked and can easily be taken out of the handle.
