

Solder-Safe 97/3 Lead-Free Solder

Certificate of Conformance

This is to certify that WORTHINGTON Solder-Safe 97/3 Tin-Copper solder is lead-free as well as antimony free. Meets or exceeds the requirements for lead-free plumbing solder set forth in the Federal Safe Drinking Water Act Amendments of June 19, 1986. ANSI/NSF 61 certified. This solder is manufactured per nominal composition noted below.

NOMINAL COMPOSITION & TYPICAL PROPERTIES

Tin (Sn) 97%

Tensile Strength 5800psi

Copper (Cu) 3%

Temperature (solidus): 445°F

Made in U.S.A.
with global components
