Updates From Our Last Meeting

FEI-STL's Annual Golf Benefit Raised Thousands for Local Organization Aim High

Our annual golf tournament was a success last month at The Norman K Probstain Golf Course in Forest Park. Together we raised \$5,000 for local academic and enrichment program [Aim High](#), which supports middle school students from high-risk communities in the St. Louis-area.

With our donation, Aim High will supply transportation for students to and from this year's summer program and purchase snacks, lunches and school supplies.

Thank you to all who participated in this year's golf tournament!

2015 PULITZER PRIZE WINNER

ST. LOUIS POST-DISPATCH

WFF's Vosse sees CFO job as more than just number-crunching

In the article, published last month, Tim discusses the benefits of FEI, how financial executives contribute to cyber-security efforts and issues concerning CFOs in St. Louis today.

FTC Enforcement of Data Security

Content provided by Husch Blackwell

HUSCH BLACKWELL

For more than a decade, the Federal Trade Commission has quietly enforced data security in administrative proceedings against U.S. companies large and small, across a wide range of industries. Until recently, no organization has vigorously pushed back. Instead, from CVS Caremark to Credit Karma, from Facebook to Franklin's Budget Car Sales, and from Lifelock to Life is Good, Inc., companies have agreed to consent orders imposing up to 20 years of FTC oversight for their data security programs.
