

# Philip Camilleri

Co-Founder and Chief Technology Officer

Philip has been coding professionally for nearly two decades. But he's been doing it for fun since he was 12 years old. Philip is a graduate of the University of Malta who has spent the last 13 years improving technology in the finance world. He's built systems and software for cellular and telecom companies, websites, online stores and international investments banks. Prior to co-founding SmartAsset, Philip worked at Anvil/ION.
