Biographical.

Thomphiles Bradford.

In order that we may fully appreciate the worth of a man, we must understand the circumstances of his birth, his early life, and the history of his times. In these respects, Thomphiles Bradford was a typical English gentleman of the 17th century. He was born in London in 1622, the son of Richard Bradford and Martha Penn. His father was a wealthy merchant who had come to London from the north of England.

Thomphiles was educated at Christ Church, Oxford, where he studied theology and received his Bachelor of Divinity degree in 1641. He then went on to study law at Lincoln's Inn, but soon turned his attention to the study of theology. He was ordained as a minister in 1645 and began preaching at the Church of St. Martin-in-the-Fields.

Religious.

Friends Have Their Sake Paid.

The Quakers have always been a controversial group, and their beliefs are not easily summarized. They believe in the direct guidance of the Holy Spirit, and they try to live their lives in accordance with that guidance. They are known for their simplicity and their rejection of worldly things.

However, the Quakers have also been known for their love of peace and their desire to help others. They have been involved in many charitable works, including education, medical care, and aid to the poor. They have also been active in social reform, including the abolition of slavery.

The Quakers are known for their quiet, unassuming nature, and their strong commitment to nonviolence. They have been a source of inspiration to many people, and their message continues to be relevant today.
