SLIPSHIRE OF FOREIGN WARES—

There has been great complaint for the past two years by the manufacturers and dealers in the trade, that their trade has been severely injured by the importation of foreign goods. The manufacturers and dealers have now formed a combination to resist any further importation of foreign goods, and they are determined to have their trade restored to its former condition. They have appointed a committee of five to go to Washington and make representations to the government. The committee will consist of Messrs. Brown, Jones, and Smith, who are well known in the trade. The committee will arrive in Washington on the 15th of July, and will remain there until the 20th. They will then return to Boston and report their proceedings to the manufacturers and dealers. The committee will be supplied with sufficient funds to carry on their work. They will also have the assistance of the best lawyers in the country.
