WHOLE No. 1440.

THE BIBLE WOMEN.

The Christian world has been charmed with the story of the noble and self-sacrificing work of the Bible Women, which has been carried on in the eastern Orient. It is well known that, at the instance of the Missionary Society of the United States, several societies were formed in the United States, and that they have ever since been actively engaged in promoting the spread of the Christian religion in far-off lands. It is also well known that, in the early days of the work, it was not without many difficulties and discouragements. The Bible Women were not received with favor by the authorities, and their work was often hindered by the people. But they persevered, and their efforts were rewarded by the vast number of converts who were made to the Christian faith.

Mrs. W. W. H. was the first to organize a society for the promotion of the work in the United States. She was followed by Mrs. A. W. H., who organized the second society. These two ladies were soon joined by Mrs. E. W. H., who organized the third society, and by Mrs. S. W. H., who organized the fourth society. These societies were soon joined by others, and the work was carried on under their auspices. The Bible Women were soon able to support themselves, and to carry on their work in a more effective manner.

The work of the Bible Women has been carried on in several parts of the world, and has been highly successful. In the United States, the work has been carried on in a most successful manner, and has been highly appreciated by the people. In foreign lands, the work has been carried on with great success, and has been highly appreciated by the people. The Bible Women have done a great deal of good, and have been highly successful in their work.

The Bible Women have been highly successful in their work, and have done a great deal of good. They have been highly appreciated by the people, and have been highly successful in their work. The Bible Women have done a great deal of good, and have been highly successful in their work.
