As the risk of missing the Sabbath is quite serious, it behooves all to be on the watch. This subject is brought out by the following passage from Ps. 119:191: "My mouth is filled with laughing, while I consider the work of your hand, and your work in remembrance." It is quite evident that the Sabbath is the work of our God, and that its observance is a testimony to our faith in Him.

The Sabbath is a holy day, and as such, it should be observed with great reverence and solemnity. The Lord has blessed us with this day of rest, and we should not allow it to be profaned by worldly concerns. As warned in Gal. 4:9-11, "Let no man therefore judge you in flesh: for the kingdom of God is not in肉, but in righteousness, and peace, and joy in the Holy Ghost." The Sabbath is a day of joy, and we should use it as such.

The Sabbath is also a day of light, and as such, it should be used to shine a light on the world. As warned in Matt. 5:14-16, "Ye are the light of the world. A city that is set on a hill cannot be hid. Neither do men light a candle, and put it under a bushel, but on a candlestick; and it giveth light unto all that are in the house. Let your light so shines before men, that they may see your good works, and glorify your Father which is in heaven." The Sabbath is a day of good works, and we should use it to do good to others.

In conclusion, the Sabbath is a day of rest, joy, and light. It is a day set apart by our God, and we should observe it with great reverence and solemnity. Let us use the Sabbath to rest from our labors, laugh with joy, and shine light on the world. Amen.

The General Conference amends the Standing Rules under hearing circumstances. The conference decide that the decision of the committee to suspend the practice of one vote for each standing committee was not the prerogative of the committee, but the prerogative of the conference. The conference also decided that the standing committee shall hold their meetings in secret, except when the conference is in open session.

CENSUS OF JAPAN—The census of Japan has been taken in full so far as is known, the first enumeration of that people. It is announced as the census for the fifth year of Meiji, the 15th year from the accession of the Emperor, which corresponds to the year 1872 of our calendar. By the census, the population of Japan is given at 338256050, the number of males being about 480000 more than females. There are 7107841 houses, 89,482 dwellings, and 1897 shrines and temples. One-half of the people are classed as agriculturists, 100,000 as artisans and 109,000 as merchants.

THE REASON—A correspondent of the London Times says that the cause of want of prosperity in many districts of the South is the excessive advancement of one branch of labor. He saw only two persons at work in the fields, and one of them stopped to throw a stone at the one that passed. Great numbers of negroes were standing about doing nothing, while the fields were white with cotton, and the weather propitious for gathering it. He adds: "Cotton and negro counties are hopeless of a factory existence, and that the exports of the existence of an open foreign sea are not yet secured."

The Presbyterians Board submits the plan existing in Brazil, in a territory nearly as large as Europe and a population of 10,000,000 there is only thirteen Protestant missionaries among the language of the people. Last week the Secretary of the Treasury received from the printing department the report of the Printing Department of $1,134,000 on fractional currency.
