The Sabbath Recorder, January 29, 1874.

Christian American.

We have just received the 'Times of the People,' which contains a letter from our Friend, to whom we are indebted for the above. This letter is a most interesting and encouraging one, and is well worth our attention. The writer says:—

"Our Lord's day is a day of rest and quietness, and we should do all we can to keep it holy. There are many things that can be done during the week, but the Sabbath is a day for rest and refreshment. It is a day for family prayers, for reading the Bible, for attending church, for doing good deeds, and for enjoying the company of friends. It is a day for reflection and meditation, and for considering the things that are important in life. It is a day for the soul's refreshment, and for the body's rest.

"We should be careful to observe the Sabbath in a proper manner, and to keep it holy. We should not do anything that would keep us from observing the Sabbath in a proper manner. We should not do anything that would prevent us from attending church, or from doing good deeds, or from enjoying the company of friends. We should not do anything that would prevent us from reflecting on the things that are important in life, or from meditating on the things that are important in life.

"We should be careful to observe the Sabbath in a proper manner, and to keep it holy. We should not do anything that would keep us from observing the Sabbath in a proper manner. We should not do anything that would prevent us from attending church, or from doing good deeds, or from enjoying the company of friends. We should not do anything that would prevent us from reflecting on the things that are important in life, or from meditating on the things that are important in life.
