THE APPEAL OF FATHERS AND THE CHILDREN.

Before the transgression of Eden the representatives of the race were placed on probation and were held responsible for every act of conduct, subject to God and Providence with a law or system of government. But in the realm of spiritual truth, in the world of beings under the government of Heaven, the children are held responsible as in the spiritual world, in the world of the earth, and in the world of the atmosphere. This is true of the children of God, and also of the children of men. They are held responsible for every act of conduct, subject to God and Providence with a law or system of government.
