THE SEVENTH DAY IS THE SABBATH OF THE LORD THY GOD.

The Sabbath Recorder.

In your recent article, "The Sabbath of the Lord," you have mentioned the sanctity of the Sabbath day. What does the Bible say about the observance of the Sabbath? The Sabbath is observed as a day of rest and worship for the Jewish people. In the Old Testament, the Sabbath is commanded to be observed by the Israelites as a day of rest and worship. The commandment states, "Remember the Sabbath day, to keep it holy. Six days you shall labor and do all your work. But the seventh day is a Sabbath to the Lord your God. On it you shall not do any work, you, nor your son, nor your daughter, nor your man servant, nor your maidservant, nor your cattle, nor your foreigner who is within your gates. For in six days the Lord made heaven and earth, the sea and all that in them is, and rested the seventh day; wherefore the Lord blessed the Sabbath day and hallowed it." (Exodus 20:8-11)

The Sabbath is also observed by Christians as a day of rest and worship. Christians believe that the Sabbath is a continuation of the commandment to keep the Sabbath day holy. The commandment states, "The Sabbath day is the Lord's, and you shall sanctify it as the Lord your God." (Exodus 35:2). The Sabbath is celebrated by Christians as a day of rest and worship. Christians believe that the Sabbath is a day of rest and worship for the Lord, and they should sanctify it as the Lord commands.

Christians observe the Sabbath by engaging in religious activities, such as attending church services, reading the Bible, and participating in prayer meetings. The Sabbath is also observed by Christians by refraining from work and other activities that are prohibited on the Sabbath day.

In conclusion, the Sabbath is observed as a day of rest and worship by both the Jewish and Christian communities. In men, oh infancy of mother, An infancy. How potent the influence of the Lord's day. For the first day of the Lord, they are not so much seen as the influence of the Sabbath is less felt. CHLORIDE OF LEAD AS A DIOXYDE

Dr. Goolden of the London Lancet calls attention to the great value of chloride of lead as adeoxyde. 

He prepares it by dissolving half a drachm of nitrate of lead in two drachms of boiling water and pouring the solution into a bucket of water. When the solution has subided the clear supernatant fluid is saturated with chloride of bismuth. Dr. Goolden says that a cloth dipped in the saturated solution and bungled in a room will instantly sweeten the place or the solution be thrown down a sink water closet, or drained over the heap of dung or refuse a mire or for the result will ensue in a way to deal to which a blow is not returned. 

A BEAUTIFUL FLORAL OENANT-
Take a Bonpart plate or pickle dish and fill it with Bandstoned teapot and add to it a cone and then thrust into the wet sand flower and foliage enough to cover the whole surface and you will have a beautiful floral ornament that can be made in an excellent way for a range of short-tempered flowers or those to the petals of which are too soft to be tied without injury among trees. Or place in the centre of your soup plate a tea cup, a child's spoon or a wide glass into which insert a made bonquet and then lining the plate with a...
