The birth of Christ has been accepted by all the world as an event of the highest importance, for it is admitted by all to be a period of the greatest change and of the most wonderful events. It is the commencement of a new era, a new epoch in the history of the world, and it is the beginning of a new era in the history of the church.

The birth of Christ was the beginning of a new era in the history of the world, and it is the beginning of a new era in the history of the church.

THE REAL CHARACTER OF ERMINE CLOTHING.

We are informed that some of our brethren have said that the use of ermine clothing is to be condemned. We would ask pardon of our brethren for not putting this matter before our church at the last quarterly conference, in the interest of purity and holiness. We believe that our church should be characterized by purity and holiness.
