WASHINGTON LETTER.

The letter was from Philadelphia, the other day, by the express, and contained the information that the Senate had passed a resolution, that the President had signed, and it was passed by the House. The resolution provides for the appointment of a committee to investigate the conduct of certain public officers, for the purpose of determining whether they are guilty of high crimes and misdemeanors, or not. The matter is of great importance, and it is expected that the committee will do their work carefully and impartially. The President is not named in the resolution, but it is understood that the committee will inquire into his conduct as well as that of other officers. The public are looking forward to the report of the committee with great interest."
