THE SEVENTH DAY IS THE SABBATH OF THE LORD YOUR GOD.
ask why you throw out of these commandments the fourth? Go I wrote it in the midst of the same time he wrote the other seven, but he did not say there or he would not have put it there. On what ground do you take it out, seeing that God put it there? But what is there in the fourth commandment that you should wish to do the same rule of operation as the others? Is it not more honorable to God to keep it than to abolish it and oppose God and the world? But you oppose the law of God because that law requires you to observe the seventh day and you refuse to do it. It is nonsense for you.
