WASHINGTON:

WISCONSIN.

It is a general idea of health with many people in this state to be under the care of one or more of the doctors, who have been practicing in the county for the past twenty years, and who have been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.

The doctor in question has been in the habit of attending the sick for the past twenty years, and who has been in the habit of attending the sick and giving them advice.
