THE EUROPEAN GLEANERS.

The harvest of the last season in the European wheat belt was a most remarkable one. The crops were large, and the quality of the grain was especially good. The yields varied from 30 to 35 bushels per acre, with an average of about 32 bushels per acre. The entire wheat crop of the European wheat belt this year amounted to about 2,500,000,000 bushels, or nearly three times the amount produced in 1876.

The harvest was also remarkable for the fact that it was not accompanied by any outbreak of disease or pestilence. The wheat crops were free from all diseases, and the weather during the growing season was favorable. The temperature was moderate, and there was a sufficient amount of rain to prevent the crops from drying out.

The European wheat belt is a very large area, extending from France in the west to Italy in the east, and from the Atlantic Ocean in the north to the Alps in the south. The climate of this region is mild and moist, and the soil is well adapted to the cultivation of wheat. The European wheat belt is one of the most important agricultural regions in the world, and its products are exported to many countries, including the United States, Russia, and China.

WASHINGTON, D.C.

The War Department has been authorized to purchase a large quantity of hickory timber for the construction of military posts and forts. The hickory timber is especially adapted to the purpose, as it is strong and durable. The War Department has also been authorized to purchase a large quantity of iron for the construction of military works. The iron is of a high grade, and is especially adapted to the purpose.

The War Department has also been authorized to purchase a large quantity of ammunition for the use of the army. The ammunition is of a high grade, and is especially adapted to the purpose. The War Department has also been authorized to purchase a large quantity of clothing for the use of the army. The clothing is of a high grade, and is especially adapted to the purpose.

THE EDDIE DIES.

Eddie, a young boy of 12 years, died last week of pneumonia. Eddie was a favorite with all who knew him, and his death is deeply regretted by his family and friends. He was a good student, and had a bright future before him. He was always willing to help others, and his death is a great loss to the community.

The funeral services were held last week, and were attended by a large crowd. The services were conducted by the Rev. Mr. Smith, and were attended by many of the leading citizens of the town. The services were a fitting tribute to the memory of the young boy, and were a fitting farewell to his friends.

Eddie leaves a widow and two children, who are left destitute by his death. The community is doing all it can to assist the widow and children, and to ease their affliction.

THE RELIGIOUS SCHOOL.

The annual meeting of the Religious School was held last week. The meeting was attended by a large number of the members of the society. The meeting was conducted by the Rev. Mr. Brown, and was attended by many of the leading citizens of the town.

The meeting was a fitting tribute to the memory of the late Rev. Mr. Brown, who was a prominent member of the society. He was a man of great piety and devoted himself to the work of the school.
