**MISSIONS.**

"Go ye into all the world, and preach the gospel to every creature."  

--- Mark 16:15

**Rev. Mrs. Whitehead, of the British Woman's Foreign Missionary Society, speaking at the House of Missions dinner in Boston, September 8, 1884.**

In the annual reports of the Executive Boards of our Trust and Missionary Societies last year there were suggestions to the end that an effort be made to secure the co-operation of the women of the denomination in the missionary effort. There is much work to be done, much imperative need for the missionary effort. But we who have the great work before us, the great wining of the world, must be able to carry forward. In the meantime there are our relative interests in the work of the societies. In the benevolent enterprises they are involved, and our friends must not, therefore, think it unjust, in our plans and labors, to show considerate regard for the menial things that remain in the old life loving lives.

**Religious Organizations.**

The people here hate the Welsh. They say we are dirty. And all through the neighborhood, there have been several attempts to get the Welsh to accept the British form of worship. But the past and the future are nothing to the present and the to-day. We realize that it is a change from one system to another, that the Welsh are becoming increasingly more quickly than the English, and that the Welsh are becoming more quickly than the English are.

**Religious Organizations.**

It is evident that the principles here set forth are sound and that the work which it is intended to accomplish is important and needful. The people here are in the midst of a great city, in the midst of an industrial community, and it is evident that they need the guidance and support of a religious organization to help them in their work. **Sabbath Reform**

The term "Sabbath Reform" refers to the movement of the 19th century that sought to change the practice of Sunday observance, particularly the change from the seventh day to the first day of the week. This movement was influenced by the rise of Methodism and other religious groups who advocated the first day as the true Sabbath. The text discusses the arguments for and against this change, highlighting the efforts of Methodists, Baptists, and other denominations to promote the first day as the Sabbath. The movement was a significant part of the broader cultural and religious changes occurring during the 19th century, as various groups sought to define and enforce their religious practices more strictly. The text also touches on the practical and cultural implications of changing the Sabbath, including the impact on work schedules, businesses, and social rhythms. The movement was not universally accepted, and various challenges and opposition arose. The text provides a historical context for understanding the significance of the Sabbath Reform movement in American religious history.

New York,

A very pleasant surprise was made to Mr. and Mrs. Daniel Whitford and their friends of Harriet, Harriell, Almond, Alfred, Andrewere and Wellenere, on the evening of the SABBATH last, when it was announced that her death had occurred, and that her remains would be throned in the cemetary in the rear of the Seventh-Day society church, where they had down besides the remains of husband and children, 2o. "Alas! from the body, prestent with the Lord." 4.-

Miss Lily Dayton had declined to contrib-
ute.

"Could they believe her? "Not anything toward such an object! " What
could it mean?"

"There was an interest of the enter-
prise, but it was of too great a nature to
be so easily concealed."

Pettigrew was confidentially told by Miss
Lily that she was not present, and that they
had never been in such a case before.

"How can I be sure of a thing if I do
not see it?"

And Mary was out of her head.

The whole story is quite a familiar one.

In the meantime, Mrs. M. Wharton had
sent a letter to her daughter, Mrs. W. M.,
expressing her joy at the news of the
opening of the new school. She had been
away from the city for some time, and was
much gratified to hear of the progress of
the work.

Mrs. M. Wharton had been the first to
advocate the opening of the school, and
had been the most active in its support.

She had been a very influential person in
the community, and her influence had
been widely felt.

She had been a friend of the family for
many years, and had always been kind and
generous to them.

She had been a great admirer of the
work of the school, and had been a great
supporter of its efforts.

She had been a great advocate of the
cause of education, and had always been
active in its promotion.

She had been a great and beloved per-
