The Guide to Busking

1,000 Titles for the Lazy

*You need a title?*

*You need a turn of a phrase?*

*You need a word that hasn't been coined yet?*

*Just scroll across these titles and let them explode across your mind like handfuls of chalk on Holi.*

*Modify them to suit your needs.*

*Rejoice at the brilliance at the turn of a phrase.*

*Praise the sexiness of their creator (cough cough).*

*I'm not going to tell you how to live your life, but thanks for buying this book. This is the 2nd in the series. I think there'll be more if I can avoid being hit by a bus. If I am, in fact, hit by a bus, then I'd have to say that's a hell of a prediction. Maybe there won't be buses in the near-future, so maybe I can dodge the bullet. But if they make bullet-buses—maybe really fast buses that you won't even see coming—then I'll still be right. For now, I'm just going to look both ways before crossing the street.*
