1	Introduction	2
2	Two Person 0-Sum Games	2
2.1	Strategic Form	2
2.2	Matrix Games	2
2.3	Dominated Strategies	3
2.4	Best Response	3
2.5	Saddle points	3
2.6	Maximin Principle	3
2.7	Mixed Strategies	3
2.8	Safety Strategies	4
2.9	MiniMax Theorem	4
2.10	2-strategy games	4
2.11	Maximin Principle $\Leftrightarrow$ Equilibrium Principle	5
2.12	Finding safety (Optimal) strategies when the value is given	5
3	Games in Extensive Form	6
3.1	The Extensive Form of a Game	6
3.2	The Game Tree	6
3.3	Game of Perfect Information	6
3.4	Reduction of a Game in Extensive Form to Strategic Form	7
4	Bimatrix Games	8
4.1	Two-Person General-Sum Games/General-Sum Strategic Form Games	8
4.2	Safety Levels	8
4.3	Strategic Equilibrium	9
4.4	Duopoly	10
4.5	Potential Games	10
5	Correlated Equilibrium	11
6	Evolutionarily Stable Strategies	12
7	The Evolution of Cooperation	12
8	Cooperative Games	14
8.1	Cooperative Games with Transferable Utility	14
8.2	Cooperative Games with Non-Transferable Utility	15
9	Games in Coalitional Form	16
9.1	The Shapley Value	17
9.2	The Nucleolus	18
9.3	Gately Point	19
10	Ordinal Matching Games	19
