

**Don't Go There!** is a story with the perfect blend of everything you want; divine redemption, the future of AI science, hot sex, real political conspiracies, and of course, true love.

At the center of it all is Eric Palmateer, a disgraced former US intelligence soldier suffering from crippling mental illness.

Through a series of twists and turns, Eric's madness proves to be a blessing when Providence works through him to bring about the peaceful unification of the Korean Peninsula and the development of safe and trustworthy AI technology.

Knowing Eric's life leads to these great things, you should definitely root for him... And preemptively forgive him for falling in love with a porn star and aligning himself with Kim Jeong Un along the way.

Basic Issue is honored to introduce Charles A. Rothbard's debut novel. We hope you fall in love with this story and find great joy sharing and discussing it with your friends and family.
