The Middle East is the history of mankind. All the great empires in human history come from the Middle East, from the Pharaohs, Romans, Arameans, Babylonians, Persians, Nabataeans, and Phoenicians, to the Umayyads, Abbasids, and Ottomans. These empires are connected to the figures and events mentioned in the Torah, Bible, and Quran, the holy books revealed by God. And your eyes will witness the women of these lands. They are not only breath-stoppers but also have the greatest history in mankind's history. I wanted to price this book at \$1000, but I decided I should make it available for many readers. Creating this book was a very difficult and rewarding experience.

I kept it very very simple. So that you may grasp all things with one glance

Three sentences, and all your confusion about Jews, Christians, and Muslims evaporates.

Jews believe in Moses.

Christians believe in Moses and Jesus.

Muslims believe in Moses, Jesus, and Mohammad.
