I Chapter - Introduction

Super Diary Pro™ is a software product - electronic personal diary, which has versions for different operating systems Windows™, Mac OS X™, Linux (including the Raspberry PI).

Through it you can:

1. Write down what you care about.
2. Except in years, months and days, you can organize your notes and group them hierarchically.
3. Keep an unlimited number of diaries.
4. Lock your important records by setting the users and access rights.
5. Use your diary over a local network or Internet (This requires the IP address and port of the computer log can be accessed from the Internet).
