# THE CONTROVERSIAL BOOK

---

Of Doctor Eli

*Man's world is filled with deciet, trickery, and false illusions.  
Live on facts, not ASSumptions. Knowledge is power!  
We are all in a theatrical play; are you just a puppet?  
The Doc Eli will show you our REAL world. Take a look!*

<b>WHAT THE READERS HAD TO SAY ABOUT THE DOC ELI .....</b>	<b>65</b>
<b>FINAL WORDS .....</b>	<b>73</b>

## Introduction: The Controversial Book of Doctor Eli

My mission is to educate you and bring you awareness about the world we live in and all the deception that surrounds us each and every day. Everyone can learn.

My thesis: fact and theory: a printed work of facts and knowledge on self-awareness and human behavior. Some examples:

- Human events and happenings.
- Socialism.
- Prejudice.
- Origin and behaviorism.
- Life and religion.
- Money and power.
- Psychology, and one's own acceptance in life.
- Health and fitness in the 21st century.

The 22<sup>nd</sup> century will begin on Saturday, January 1<sup>st</sup>, 2101, and end on December 31<sup>st</sup>, 2200.

### WORDS TO DESCRIBE OUR BEHAVIOR

*Society*: Socialism. How we act or behave as a class of individuals. Our origins or behavior, beliefs. Society is like a barking Dog, or a crying Baby. It's the person who is supposed to oversee it, that's really annoying you.

*Abeyance*: a state of temporary disuse or suspension. Oblivious; not aware of or concerned about what is happening around one. You. Ignorance is bliss.

*Ignorance*: lack of knowledge or information.

*Obnoxious*: unpleasant, disagreeable, nasty, distasteful, terrible, dreadful, revolting, I think that's enough.

*Predominant*: present as the strongest or main element.

*Boastful*: verbs meaning to speak with pride, about oneself or something related to oneself.

*Knowledge*: Facts, information. Skills acquired by a person, Experience, Education. The Theatrical or Practical understanding of a subject.

*Wisdom*: I fear no man, for fear is just your imagination running away with itself.

*Conscience*: a guide to the rightness or wrongness of one's behavior. The Marines classified this a little better than I did: "Pain is weakness leaving the body."

*Pain*: You can see the pain on someone's face, just as you can see their happiness.

## Chapter 1

The blood of the wicked shall flow like a river and we shall spread our flock and wings and be the vengeful striking hammer of God.

There is a remedy for everything, except death.

The first three revelations:

1. The 10 commandments everyone should embrace.
2. The word and prophecy of God.
3. Eli – the Word of God through man/priest.

To every action, there is always an opposed, equal reaction.

It is not death that a man should fear, but he should fear never beginning to live.

We stopped looking for monsters under our bed when we realized that they were inside us.

That which is done out of love always takes place beyond good and evil.

God and the Devil are fighting there, and the battlefield is the heart of man.

These quotes are not all my own, but many are, by the meaning that they share.

Human cell regeneration (cloning) exists but at what cost? Human beings can be brought back to life.

### DOLLY

Dolly (a female sheep) lived a pampered existence at the Roslin Institute. She mated and produced normal offspring in the normal way, showing that such cloned animals can reproduce. Born on July 5, 1996, she was euthanized (put to death humanly), on 14 February 2003, aged six and a half.

### DNA

Deoxyribonucleic acid is a molecule that carries the genetic instructions used in the growth, development and reproduction of ALL known living organisms and many viruses. In humans, each cell contains twenty-three (23) pairs of chromosomes, totaling forty-six (46). The Twenty-two (22) pairs are called Autosomes; they look the same in both male & female. The 23rd pair, the sex chromosomes, differ between male and female. NO individual human will ever have the exact same combination. Used in forensics, scientific tests, and techniques used in connection with the detection of a crime. Now, many companies are offering DNA testing,

Find out about your possibility to get cancer. If a woman is fertile (fertility, produce offspring). Where did you really come from, your true heritage, ethnic back ground? There's even DNA testing labs for cloning yourself! OMG!! Oh yeah, then there's the mentioning of seeing if you are related to Neanderthals? Yes, that's how we all started. We are European, Asian, as well as African descent. Just read about it!

Doesn't it really mean that we are all just a spec in the universe? It's who you think that you are, that you try to be, live, not who you're told you are.

### A REMINDER

I just said animals can be cloned; we are animals. I referred to the DNA testing labs that can extract your personal 23 pairs of chromosomes, that only one person has, making them an individual. YOU! So, do you really care about all of that predicted horse manure?

Does it really change a thing about you? NO! You're still the same person. Here is what you did!! You gave your DNA to a total stranger, a company insuring that it's just a test for you. See the real you. Really!! Will you see yourself walking down the street someday because you willingly gave up your DNA to be cloned? So, there you are, somewhere else in the world. Or better yet, your excellent 23 pairs, are being used to clone parts of the human body for research, or the replacement of human organs. How do you know any different? Because they said so. Because it would be illegal. Of course!! So just trust them. I think not!

### ILLUSIONS

Illusions: a distortion of the senses, revealing how the human brain normally organizes and interprets sensory stimulation. Although illusions distort reality, they are generally shared by most people. Are you being fooled? Do you know what's going on right in front of you?

### SOMETIMES

Is it fair that one person can live, while the other dies, because the other (dead) person could not afford the treatment? Why can people with titles, popularity, famous, or rich, not suffer the same consequences of the common man? Because money rules man's world, that's why!

Why do we have to listen to more ads and commercials on television or radio, than actual shows or music? Because we allow it. Just turn it off until they stop! Look into streaming, a modern method of transmitting or receiving messages. Make your own choice!

## WHAT DO I CALL IT?

“The Jerry Springer Effect.” Showing us how to act out, aggressively, and monkey-like. No more thinking or planning. Here’s the way you do it. We had a black President. Progress. No?

More and more shows are calling themselves reality shows. What happened to laughter? Fun, a story line? So much nonsense! If you like to watch T.V., it costs more for the different channels you need to get for the things you want to watch. For example: three shows on one channel, two on another, and the one you really like, is on another channel. Dish & Satellite T.V. Pray there’s no rain or huge clouds! Monopoly. It’s one of these or nothing. Use streaming, a better (and low cost) choice!

People hitting, name calling, plotting against each other, screwing their best friend’s boyfriend or girlfriend, or better yet..... now killing with automatic weapons in the streets. It’s scary as hell! How safe are you? As safe as you make yourself in your own surroundings. It’s called “awareness.” Do you see what’s right in front of you, or are you blinded by all the things that are preoccupying your mind? It’s easy to see things if you just take a moment and LOOK!

## BELIEF

Believe what you hear, you’re a fool. Take a drug you don’t know about, you’re even more foolish! Learn the facts about everything you do before you decide. Own yourself. Take control of yourself.

## HOLIDAYS

A time of celebration with your friends, family, and loved ones. Celebrations that came from our history. Thanksgiving, Easter, Christmas. Wonderful memories can be created. But wait a minute! Are they celebrations? Or are they just stories made up by man’s society. What we are expected to do because of someone, who knows who, decided to change what the holiday really is.

My example: Thanksgiving, a time to be thankful for all your blessings and the ability to eat and share your good fortune with family and friends; grateful. Not so grateful today. With no family values to even consider sitting at the dinner table at the same time, a time for family gatherings is more non-existent. Too many excuses! If you’re not in the mood, don’t go. Negativity loves negativity. Try to be happy just one day. Why would you not want to be with them? Family is blood and you should never forget that. It’s easy to hurt your own family. Sometimes, a stranger can be a better friend.

Christmas, a time to be thankful for your faith, Jesus. Promise, hope, happiness, your success, and family. Love. If there’s good in a person, you see it. Instead, it’s also a time we can hope our

children behave, telling them that a made-up Santa Claus will leave them coal if they don't behave, presents if they do.

## SANTA CLAUS

A long time ago back in Turkey, it all began. Born around 280 A.D. Good Ol' St. Nicholas. Modern day Turkey. Patara near Myra . The subject of many legends. So, tell your kids that story; it's great. Instead of spending thousands on foolish belongings that end up in the closet or storage. Rubbish. One or two gifts that come from your heart, should be good enough. Make your children behave, always, teach them right and wrong, excepted behavior, especially in public. It's called respect. If Santa Claus is the boss, then who are you? Try telling your children what (Christ-mas) really is about. You can still celebrate a time of love and happiness together.

## EASTER

And finally, Easter. That's the worst one of them all. A bunny that leaves eggs and candy. What was the purpose of that, a marketing scam to sell you more crap? Were the candy sales low? Give me a break already!

Easter, also called (Pascha) or resurrection Sunday, is a festival and holiday celebrating the resurrection of Jesus from the dead, described on the 3rd day of.

If you don't believe in Jesus, if you have no faith, tell your child the truth, give them a chance to decide for themselves. Let their holidays be one of personal choice. Love brings Love.

## WHAT IS LOVE?

A moment in time when you realize that someone else means more to you than you mean to yourself. Daydreaming all day, while the one that you love is off, off away. When a baby has fallen asleep on you, do you dare move? Not for a moment. Love is the truest form of self-gratification. Love is feeling loved back.

## UNCONDITIONAL LOVE

When there is nothing you won't do, to please the other.

You're grateful in every way, just to please them.

## HARD LOVE

Is when you had to do something that you never wanted to do. Why? Because, if you didn't, the one you love would continue to hurt themselves, or live a life of shame. For example: A drug

user, an alcoholic in the family, hurting themselves and all those who love them. You might try intervention. But, when it really comes down to it, you say: "Stop using, get help! I will help you. If not, leave my house." Another example, your child's behavior is bad and hurtful, filled with bad words directed at you, ungrateful, disrespectful, and even name calling. Do you except it? You shouldn't. You're teaching them negative response signals by allowing it. How to act out to get what they wanted, attract attention. Be obnoxious. What most do, is make them go out on their own, learn the hard way, without your support. Work; gain independence. Support them if you can for an education. Then let them go. Experience is life. Without it, you will never change. That's the only way a person learns how to survive, self-sacrifice. Hard love always hurts. That doesn't mean the person doesn't love you, it means there was nothing left to do, you were hopeless.

## ISSUES

The problem today, too many people have no time. Time is all we have. Apparently, as we get older, we want less complications, like cooking, cleaning up, or the trip itself. In today's world, younger people are constantly on the go; too occupied and preoccupied. They're not paying enough attention to their surroundings; always on their cell phones.

## WHAT DO I CALL IT?

"The Matrix" I like to call it. Can you make one statement that is your own? Or just the views of others, that have already been said. Well, "I'm attempting to make a statement here." "I'm not saying anyone is stupid, you're programmed to be from your very birth."

## BRUCE LEE

Bruce Lee in "Enter the Dragon"

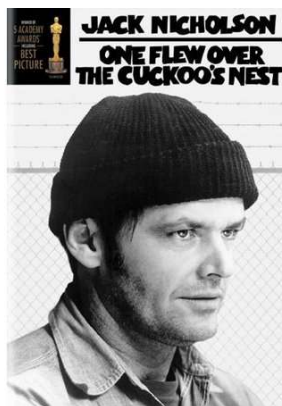

My mentor, Bruce Lee. Philosophical, attentive, aware of himself and his surroundings. Martial Artist. Quotes from Bruce Lee:

*"Water can be hard and soft. Be like water, my friend."*

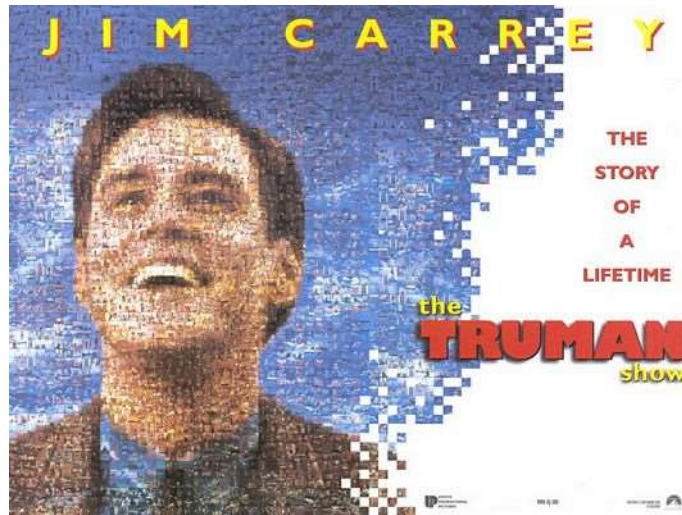

*"Don't think, feel...it's like a finger pointing away to the moon. Don't concentrate on the finger, or you will miss all of that heavenly glory."*

## THOUGHTS

If you have never seen, "One Flew Over the Cuckoo's Nest," with Jack Nicholson, I highly recommend it. A very humorous outlook on all the different types of people, their beliefs, and what motivates them. If you **pay attention**, you just might see yourself there. Imagine that!

The best movie that represents exactly what I talk about in my book is, “The Truman Show.” Jim Carey is the star. A false world that is non-existent. The only person who thinks it’s his real life is Truman. Everyone else is a made-up character, an actor. Perceptual reality.

## TIME

The indefinite, continued progress of existence and events in the past, present, and future, regarded as a whole. So, can someone tell me this? Who are we to fool with it? We change the time once a year. Why? Because someone said they like darkness or light better than the other. It's ridiculous; unnecessary. Just another one of society's adjustments. It causes confusion and you forget. It was never meant to be fooled with, controlled by man. Time is the very essence of life!

**Zen Master**

**LET ELI BE YOUR GUIDE!**

The Vitruvian Man represents the space around you and the universe.  
We all have the Hulk inside of us. You make the choices.

Soar free like an eagle.
