## Prologue + Miscellaneous

“Instead of drinking wine and eating bread - we drink tea and eat biscuits”, said our Lord and Saviour Tobers, and then there was tea and biscuits.

And so the Tobbists formed a church, and it was the best fucking church ever.

“This will become so big it will be on #🔗 roles” prophesied our Lord and Saviour Tobers, and so it was. “#🙏 theology about to become the most used channel”, said Tobers.

But then stuff happened.

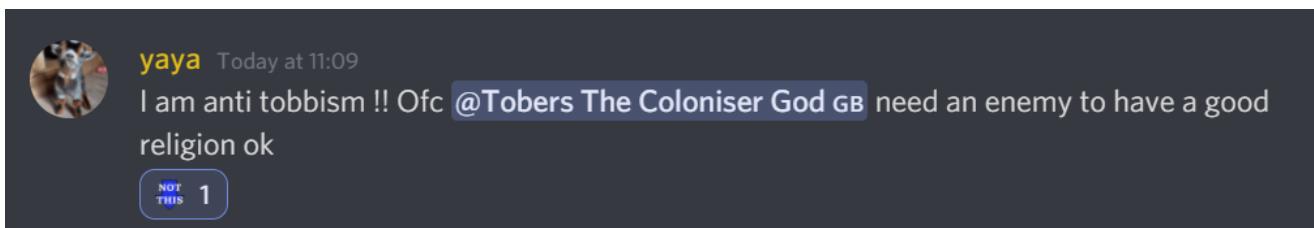

# Chapter 1: Birth

Tobers was born from a woman and goat, from which he got his love to gloat. From this day of conception, he would go on to share a revelation. The Knowledge with which he was born, would soon cause the ignorant to mourn. For Tobers knew, more than others, that eternal salvation came from banging mothers.

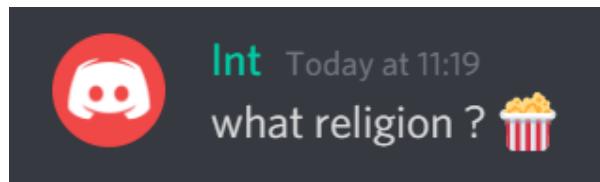

Now the righteous Tobers began, his divine quest, his perfect plan, to bring knowledge to every man, regardless of attention span. From the day of his birth, to every household would mirth be brought. But then, was born yaya, the antitobers. Yaya saw not tobbers greatness, and only wanted to promote themselves as a false idol. They spoke many lies.

And yaya was so evil for they were french; though all that the light touches is Tobers kingdom, there is no light in france. They bought their own fallen angel, the one known as doof the goof, who bought pain and suffering across the land.

yaya Today at 11:09  
I am anti tobbism !! Ofc @Tobers The Coloniser God GB need an enemy to have a good religion ok  
NOT THIS 1

And then yaya bought into the world theabbie, a cruel monster who does nothing more than spread lies. And yaya tried to bring the mods onto us, in a horrible attempt to destroy our perfect religion. So, in revenge, Tobers created a being second only to himself - "Int."

Int Today at 11:19  
what religion ? 🍿

Int asked, for she was not all knowing in the same kinda way as tobbers. So Int followed the religion, and joined us, in the quest to increase tea exports. But Int knew that Tobers could not follow yaya, who was spreading lies. And so they said "Well, if Tobers does not combat an evil being, all of this loses much of its sense, huh?" in response to Yaya saying "Wait what if the devil was an allies to the god ? Tobers, ur religion can be original." So, in the end, Tobers made his final decision.

**Tobers The Coloniser God GB** Today at 11:23

Yaya you're about to be declared as the french devil goddess

Goof the Fool attempted in vain to create an amogus cult,  
but no one joined him, since that meme's really really dead.

**food || Cult of Amogus** Today at 11:25

Heresy

Let's just say you won't expect the Spanish Inquisition

But then, yaya tried in vain to spread yet more lies, by saying they were Tobers' only friend. In reality, all that practice Trye are Tobers' friends and he will bless us all with nice biscuits. And all was good... but then, Int was sent on a quest. And all was less good.

Eventually, a server was formed by callmebarbara filled with bri'ish people. (and an American.)

On it, everything was really wholesome and we spread the religion and other stuff.

And then, theabbie joined.

## Chapter 2: Education.

Tobers teaches a belief system called Trye, though he edits any existence of that happening. It teaches that you shall edit any misspellings, unless you are holy. For only Tobers can misspell something and later say “xox.”

A central part of Trye is that when practicing Toberism, you must listen to Ameno, for that is what he does and we must replicate his genius. For Tobers knows all and does all, but only eats tea and biscuits for he is Br'iish.

A british legend ngl.

If you practice Trye you will be rewarded with nice cookies, for they are the ultimate prize.

And if you are a couple on a discord server, then the practicing of Trye will make Tobers say:

do you want me to perform an exorcism?

And all will be good.

We know we must practice Trye for Tobers once said:

“the commandments are in the bible youngling -  
there you shall find all you need to live a fulfilling life”

On the first day, Tobers said - let there be tea and biscuits - and there was tea and biscuits.

On the second day, Tobers said - let there be Britain - and there was Britain

On the third day, Tobers said - let there be Colonisation - and there was Colonisation.

On the fourth day, Tobers said let there be British accents - and there was British accents

On the fifth day, Tobers said let there be fish and chips - and there was fish and chips

On the Sixth day, Tobers did not really do that much. So, to fill in for time, here's a random MS Paint picture.

And lastly on the seventh day, Tobers said let there be beautiful people - and there were my followers, and you recognise them for they are the british.

And there was an 8th day for a while, but it was shit, so we all just pretend it isn't real, innit?

## Chapter 3: Colonisation Sundays

“Colonisation Sunday’s 😎” said tobers, and so there was colonisation, and now sunday is the holy day of colonisation.

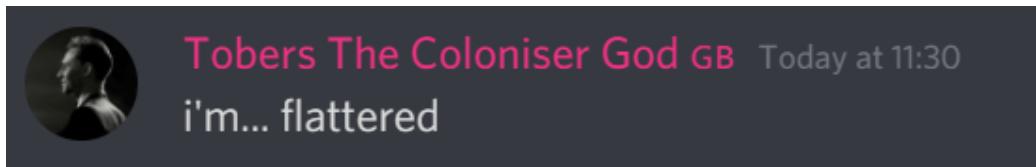

He colonised multiple landmasses with almost no effort at all. He called it the new world, and welcomed us in. His great power simply allowed him to take over the universe in a single sunday, even faster than that of that stupid “god” from christianity.

### **The mother of Tobers**

In primeval times, a maiden,  
Beauteous Daughter of the Ether,  
Passed for ages her existence

In the great expanse of heaven,  
O'er the prairies yet enfolded.  
Wearisome the maiden growing,  
Her existence sad and hopeless,  
    Thus alone to live for ages  
    In the infinite expanses  
    Of the air above the sea-foam,  
    In the far outstretching spaces,  
        In a solitude of ether,  
    She descended to the ocean,  
    Waves her coach, and waves her pillow

Oh how did he do such impossible feats? Oh how did he conquer that which was not his? Simply, a complicated mechanism of metaphysics. Firstly, he exists in multiple planes of existence, he is the highest superiority here, and even among us writers. He is a universe sized boltzmann brain controlling all of reality. Even this one, such that is so confusing, such that is so boring, such that is so exciting was made in a drunken slur. Oh how he can make reality after reality with nothing but a thought! Not even a word! Not even a gesture! Even barely a thought and what beauty he has created! Tobers true name is flattered.

## Chapter 4: The commandments

Tobers came to his people with dried pasta sheets, upon which was inscribed the commandments for all good people to follow.

**The 1st commandment: poggers! must drink milk**

**The 2nd commandment: The symbol we are recognised by is .**

**The 3rd commandment: Consume ludicrous amounts of tea and biscuits.**

**The 4th commandment: Bully mods for fun**

**The 5th commandment: TURN UP FOR POETRY + FUN READINGS 14:30 GMT**

**EVERY SUNDAY!! Now ending rip**

**The 6th commandment: You shall only be bri'ish to be viewed as a comrade by Tobers**

**The 7th commandment: Join us, practice trye.**

**The 8th commandment: You shall put #tobbist on your nickname**

**The 8.5th commandment: Thou shal not staff**

**The 9th commandment: Do not interact with theabbie#4376**

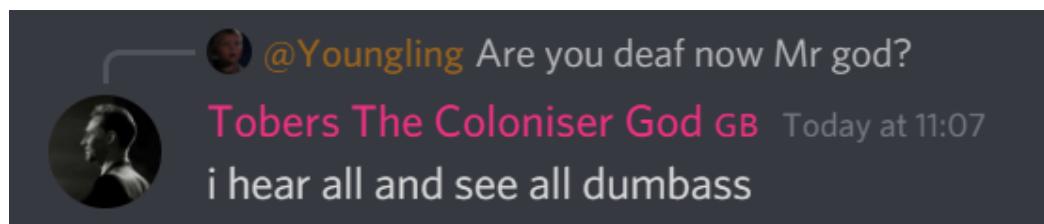

**The 10th commandment:**

## Chapter 5: The images and speaks of tobers:

“Long live the memegenerator.net”

Tober's image is so humble. He is beautiful but chooses to be seen as God - so humble, so powerful.

From now until the dawn of time, the purest of souls, the ones to be closest to the god during their time on earth, shall be called “dumbasses”.

# Chapter 6: Religious Festivals

## **Colonisation Sunday:**

Colonisation Sunday is the day where we go to lesser and weaker nations and colonise them. We form new trading routes to increase the speed with which our tea bags are bought around the world. We celebrate Colonisation Sunday with nice biscuits and tea. We attend poetry readings by Tobers, sometimes a few poems written by James/callmebarbara - a bit of simping is required.

## **Tobers' Rise:**

On the 16/05, of each year, we celebrate the start of our religion, by praying slightly more then usual to tobbers. It's a really great day, and we make fan art and stuff. Fan art.

## **The Queen's birthdays:**

On the Queen's first birthday we must all add French flags to our nicknames and say "Tobers save the Queen!" a lot, for the Queen of England is Tobers' mate, y'know? They eat crisps together and it's real sweet, innit. On the Queen's second birthday we do pretty much the same, only now it's slightly rainier so we make small talk about the weather.

# Chapter 7: Allies and Friends

## **Yacout (Yaya)**

She is an incredibly evil goddess. Worst of all, she's French. However, Tobers accepts Yaya and loves her very much. \* some dispute this claim

## Chapter 8: Int does stuff

Ints quest started with her hope; that the religion stays timeless.

“i really hope someone stumbles upon that document as a remnant of our era”

And so, Int was granted the opportunity to spend time with god himself, in an attempt to gain a british accent.

But then, she saw a vision where god himself died! And that was the end. When she was told that it would never happen, and that no one would find the document, she pressed X to doubt.

So int travelled to a new server, and said “bonsoir.”

Sh6e was shocked by the fact that she was considered a prophet there.

But then, int leaked our info- she attempted to get a person known as julian to join.

Even Tobers was disappointed by int.

But, int did not betray tobers- she was too in love with tobers accent to even consider doing so.

Tobers sent int on a quest.

It was to make a cup of tea, and send tobers a picture

It was a good cup of tea.

Tobers was very proud of Int and they shared some tea together.

Int promoted Joe to enlightenment too, and all was good.

## Chapter 11: Theabbie

It was a good day. Tobers was blessing us with their wisdom, and bedtime stories. We were writing constantly in the bible. It was progressing at a constant rate. Everyone was happy. Theabbie was not in the server.

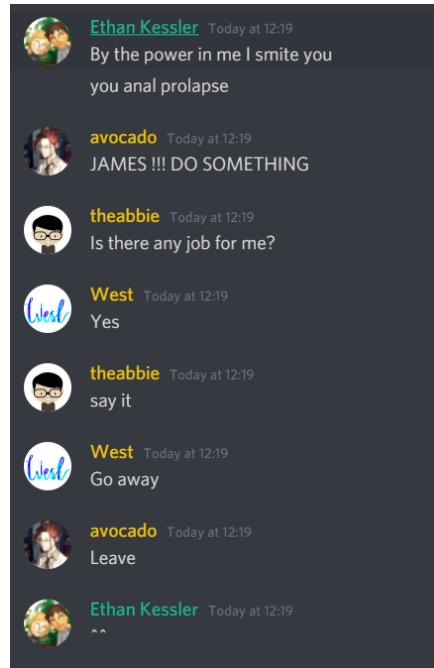

Good to see you, **theabbie**. Today at 12:18

The entire server collapsed into ruin. The entire world was set on flame. Nothing good was occurring. It was not, infact, good to see theabbie

Theabbie bought lies, saying that they were the vice god. Of course, this wasn't true. The abbie was a cursed being, and really mean and probably smells bad. Ethan, the technician and CEO, attempted to smite him down instantly.

Theabbies quest became to leave, but unlike Int, theabbie is shit at quests and wasn't able to.

**theabbie** Today at 12:19

No, I want a job with dignity

**avocado** Today at 12:19

**@callmebarbara** BRO WTF

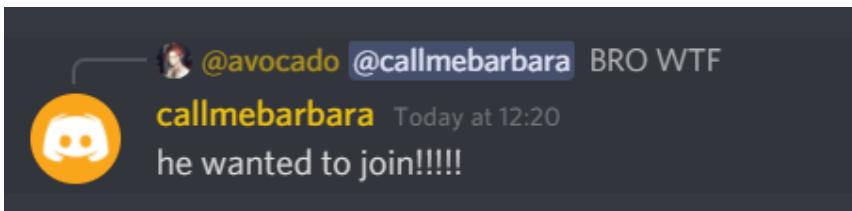

**@theabbie** Is there any job for me?

**SuperLame** Today at 12:20

worship tobers, it's the most dignifying job my child

Theabbie refused to worship our god because they're mean and dumb and smell bad.

We learnt that callmebarbara was the one who had caused such chaos. But, tobers forgave them because he's nice like that :D

**theabbie** Today at 12:21

Does god need an assistant?

**callmebarbara** Today at 12:21

Tobers has the power, he can ban if he wants

**Ash Kessler** Today at 12:21

no

**Smol** Today at 12:22

I would be honored to be banned by Tobey

**Tobers** Today at 12:22

i could never

Theabbie created a paradox almost instantly. Everyone got really annoyed at him, which is the right thing to do, honestly. But still; Tobers stayed forgiving.

**theabbie** Today at 12:22

*Granted Unbannable Potion*

**ROLES**

unbannable

**Tobbist**

Theabbie used his evil powers to make themselves unbannable, since they're so mean. Why would you do that?

**theabbie** Today at 12:23

Only god can be a mod

**Smol** Today at 12:24

Can I be a god?

**theabbie** Today at 12:24

you already are

**Smol** Today at 12:24

Correct

**theabbie** Today at 12:24

How lenient are NSFW policies here?

Theabbie tried to get permission to send NSFW, but failed. Since they're dumb.

**theabbie** Today at 12:34

God, please make me a human

What is God's Net Worth?

**Smol** Today at 12:35

7

**theabbie** Today at 12:35

Billion

Gazillion

Bitcoins

**Smol** Today at 12:35

7 USD

**theabbie** Today at 12:36

Tobism is growing really fast, we need more office space and employees

They attempted to capitalise on Tobism, which is bad.

**theabbie** Today at 12:48

Tobers doesn't want to be god anymore

**600** @callmebarbara no, theabbie sends hentai, not lies.

600 Today at 12:48

what if... they send both?

**callmebarbara** Today at 12:48

@Tobers o'lord you shall be the judge

And then, barbara called upon tobers to fix the situation. And they did. Tobers rewrote theabbie's DNA to make him a devout follower of tryth.

And that was the end of theabbie's first joining of the server.

He has been domesticated.

Bye bye lord Tobers! We love you! And good luck!

## Chapter 12: The leaving of Tobers

Tobers begun the reading of the poetry, and taught us of his poetry. He read much to us, that night, and many lessons were learnt.

But, as he prepared to leave us, we convinced him to do a reading of The Holy Bible Of Tobers.

He begun with the prologue, and we read it with him. Our lord laughed at the good parts and the funny images, and helped spread the word of the best fucking church.

He explained many of the elements in Chapter One to us all, and slowly made his way through the book.

As he read, we finished the book: fixing lines and errors and adding elements that we had not considered before. It was like we and god had become a single spirit.

Members helped showcase the images and quotes that were missed or could not be seen. Edits and advice and the history of the bible flooded the channels. It was one of the most beautiful sites our god ever saw.

He finished with chapter 11, and read the following line:  
“He has been domesticated.”

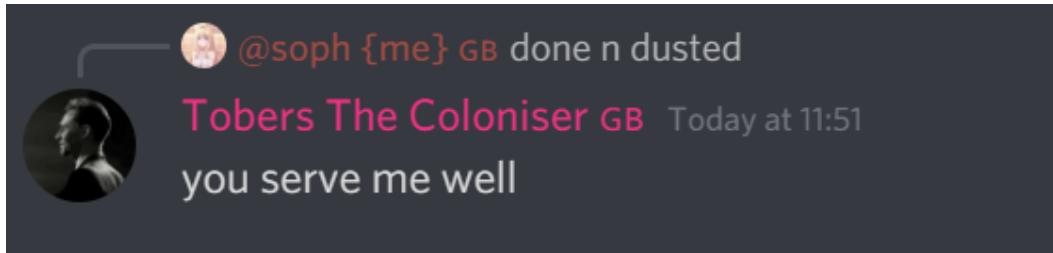

And, just as theabbie was domesticated, tober domesticated society and the universe. He made it perfect once more.

And then, he delivered one last heartfelt speech, and then he left.

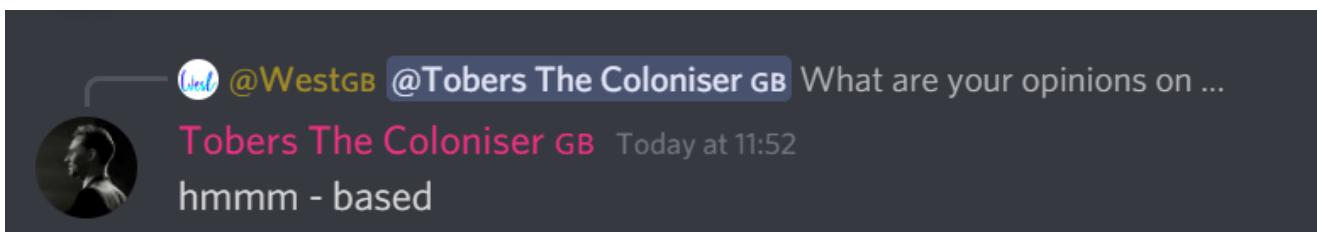

Now we, as tobbists together, must work to spread the worst of tobism and to let all know of his wisdom. This is the truest religion and all should know about it!

Finally, from the ashes that remained, were Int; jesus christ. And grandmother char, the one who birthed the goat and will spread cookies throughout the land.

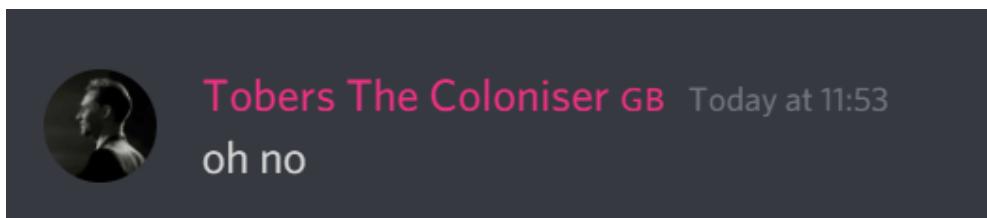

## Chapter 13: The final 10 messages

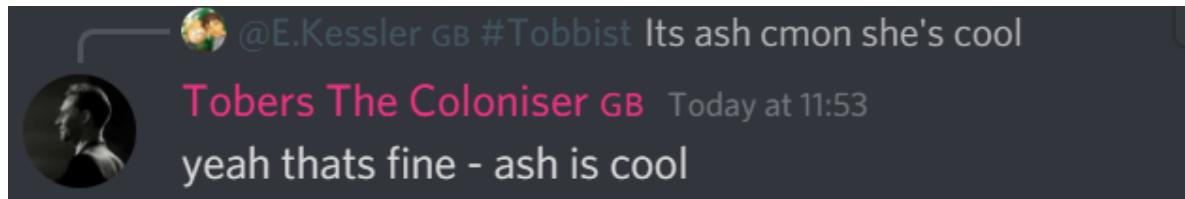

*This shows how when we do things, and when we dust things, then tobers is pleased and we know we have served him well.*

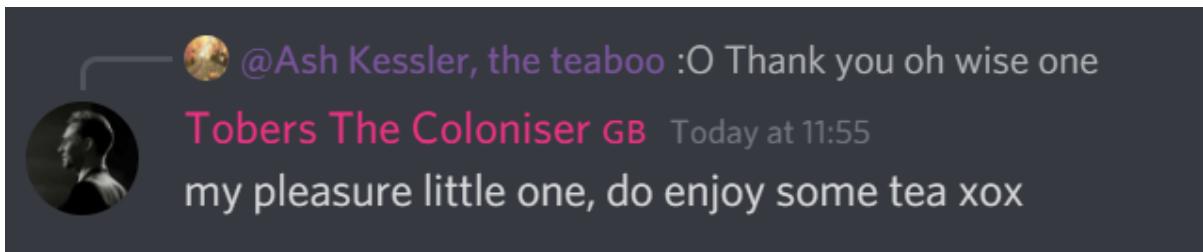

*This shows how west is based, and we can consider him a disciple. He speaks the truth, like int and like grandma Char.*

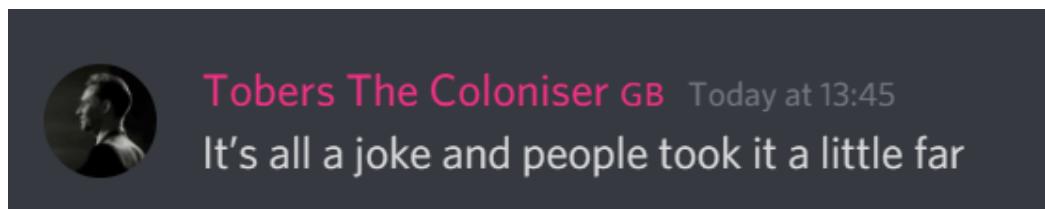

*The fact that Tobers is saddened by something shows how the world is not perfect, but together, we can make it so.*

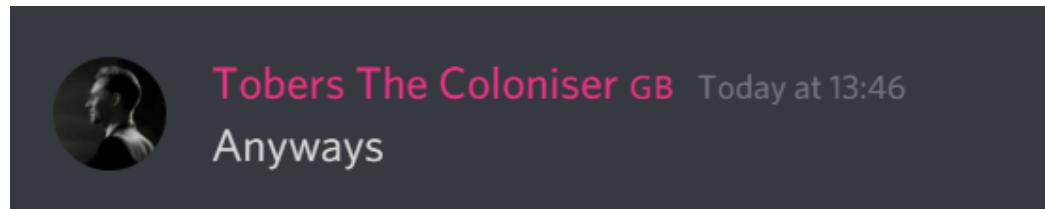

*We must take this to mean that ash was also a disciple, and that we must listen to them like we listen to west.*

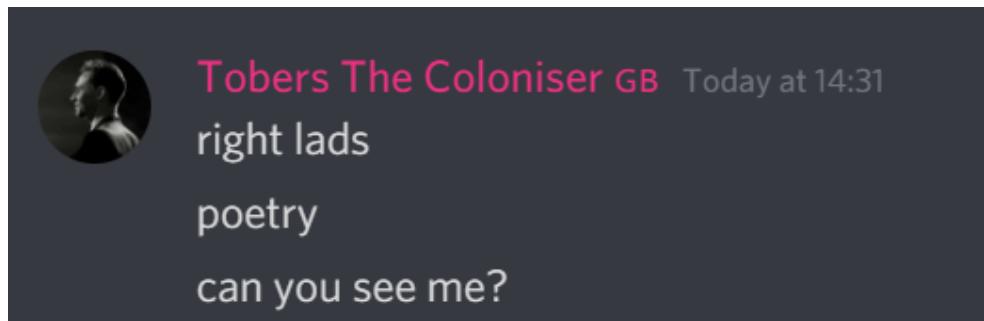

*This shows how holy tea truly is. We must all pray to tea, for it cures all.*

*This shows how, as Tobists, we must allow jokes to remain jokes and never take things so far that it harms people.*

*This shows how there will always be more, and that there will always be something else. Anyways.*

*These final 3 messages are condensed into one, since only together, do they make sense. It shows how poetry is holy and that it is right, lads. And, that when you're reading it, you will meet Tobers for that is what he is god of.*

## Chapter 14: The missings
