## INTRODUCTION

*Word Search Puzzles with Solutions - Fun and Educative Activity Book for Kids* is a reproducible book of word search puzzles. The book will work with a young audience, especially language learners at a beginner level.

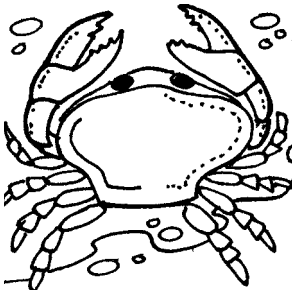

Word search puzzles are the ones where you are given a list of words and also a grid full of letters. You must search the grid to find all the words from the list. These words are camouflaged on the grid and they go in various directions, such as right to left, left to right, up and down, and diagonally in any direction.

Each unit of puzzles is based on a theme. There are 10 words to be studied in each unit. An illustration is given for each vocabulary word. A space is also provided for you to practice writing the words.

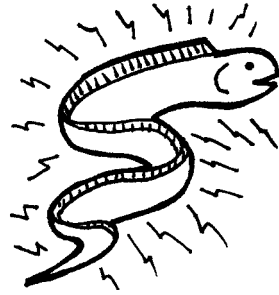

In each unit, there are two-word search puzzles. One of these puzzles features the vocabulary words alone on the grid, without any extra letters. The second puzzle has the vocabulary words hidden in a grid full of letters.

Solution to all the puzzles are provided from page 101. Good luck!
